

Our Chosen Five ESG Core Priorities

<https://www.un.org/sustainabledevelopment/>

At Hexadex we believe we have an important responsibility to help reduce the impact of our activities and support local communities, considering where we may have the biggest impact.

We realise that all the SDG's are essential to focus on sustainable development, however, we have prioritised the 5 goals most aligned with our group values.

Ensure healthy lives and promote well-being for all at all ages.

Looking after our people through our principles of no harm and positive mental Health and wellbeing, delivered through providing good working environment, Managing workplace risks and supporting policies.

Take urgent action to combat climate change and its impacts.

Minimising our impact on the environment through improving the efficiency of our energy use. Establishing renewable energy resources and reducing resource usage and our carbon footprint.

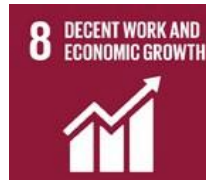

Make cities and human settlements inclusive, safe, and sustainable.

Policy on Modern Slavery, Policy on Anti Bribery and Corruption, Sustainable supply chains, Ethical sourcing, Engagement with locally community, strive to be the customer and supplier of choice community. Ensure sustainable consumption and production patterns. Responsible sourcing, Design for a) Manufacture, Recycling, Optimal material use, Drive efficiency in material use and labour productivity, Minimise waste.

Ensure sustainable consumption and production patterns.

Responsible sourcing, Design for Manufacture, Recycling, Optimal material use, Drive efficiency in material use and labour productivity, Minimise waste.

Promote sustained, inclusive and sustainable economic growth.

We value our employees and their contribution to the business. We regularly conduct employee engagement surveys, provide regular Group updates to all employees and give them the opportunity to share in the success of the business through a profit share and Share Incentive Plan.
